Gold Glimmer – approx. 3.5 x 4.5 to die cut image with

Black approx. 3"x4" to back behind die cut image

Instructions:

1. Fold and score white cardstock
2. Die Cut Hooray thinlit
TIP – for sandwich I layer magnetic base, precision plate, glimmer paper, thinlit, acrylic block and then I run it through several times (3-4 at least) , remove and use brush to remove all the little pieces. You will need to snip the sides as it is designed to make a pop up and we are simply creating an element for the front of the card
3. Adhere black cardstock behind the gold glimmer die cut image
4. Adhere the glimmer backed image to the vellum
5. Stamp verse on scrap of whisper white with black ink
6. Punch verse with circle punch
7. Add verse as seen in image
8. Add adhesive on the back of the vellum on the die cut image and a glue dot in each corner
9. Adhere vellum to folded and scored white cardstock
10. Add greeting of choice and personal message to inside of card
11. Mail or hand deliver to someone who has a “hip hip hooray” reason to celebrate
