- Whisper White: 4" x 5 1/4"
- DSP Print 1 4" x 2"
- DSP Print 2 4" x 2"
- Scrap piece of black cardstock for daisy

## Instructions:

1. Score and fold 11" piece of Whisper white in half
2. Adhere both pieces of DSP to front of card
3. Emboss the smaller piece of whisper white using the word HAPPY from the Celebrations duo. (Big Shot embossing folder) Off center the Word Happy so that you can wrap ribbon on one end as seen in picture.

\*Tip I usually add a piece of cardstock as a shim under the acrylic pad when embossing these words to add more depth to them.

4. Wrap a small length of crush curly around end of whisper white cs embossed with word happy from set #3
5. Punch daisy from black cardstock and adhere behind whisper white piece with HAPPY on it so only a little over half is seen
6. Add the embossed Happy piece to card front
7. Add your clear faceted gem to daisy center
8. Add greeting of choice and/or handwritten note
9. Slip into envelope and bless someone with a pretty handcrafted card.
