Measurements:

- Dapper Denim – 11" x 4 1/4"
- Sahara Sand – 4" x 5 1/4" (X 2 one for inside card, one for card front)
- Scrap Dapper Denim and Sahara sand for Lots of Labels framelits based on size you choose to use.

Instructions:

1. Score and fold Long piece of Dapper Denim at the 5 1/2" inch point
2. Adhere of the 4" x 5 1/4" piece of Sahara sand to inside
3. On second Sahara sand piece measuring 4" x 5 1/4" stamp the largest sunflower piece randoming using marina mist.
*TIP – for photopolymer stamps I like to use the paper piercing mat as a surface for stamping I find I get much better contact between the stamp and paper.
4. Stamp top layer sunflower piece (the smaller one) with dapper denim over all the marina mist images
5. Stamp the center of the flowers with the circular flower center and peek a boo peach
6. Stamp the ferns with Old Olive
7. Stamp Happy Birthday (or other greeting of choice) using dapper denim

8. Die cut a piece of Dapper Denim and the Greeting using Lots of labels so that the sahara sand piece can layer onto the dapper denim as seen in the photo
9. Adhere the label die cut pieces together
10. Hole punch both sides of the layered piece and thread ribbon through – cut long enough that ribbon can wrap around the quarter sheet stamped piece of sahara sand and tie into a bow.
11. I find it easiest to adhere layered label piece to card front after threading, then to add adhesive to the card front wrapping my left piece of ribbon around the back of the card to the right side then mounting the card front to the folded Dapper denim and lastly tying my bow as the card front is secure and not slipping around.
12. Add sentiment of choice, handwritten note to inside of card
13. Brighten someone's day.
